It is the mission of the Missaukee County Commission on Aging to keep the seniors of our county safe and independent in their homes through education, advocacy, and services.
Fiscal year 2018 was a year of change for the Missaukee County Commission on Aging (MCCOA). It was our first year as a 501c3 Business Non-Profit. Allowing the agency access to new opportunities and funding. In August you supported us and passed our millage. We appreciate your trust in us!

As a 501c3 we are able to apply for new grant opportunities, this fiscal year we were able to secure a MACF grant used for specialized transportation, a United Way grant used to offset the cost of providing Medicare Counseling to the community, a grant from MDOT for non-emergent transportation, a RTF grant that allowed for new technology to be purchased, and increased the amount received from MIPPA grants.

We again had changes in leadership both on our board and within the agency, with this being said we have strived to provide as many services as we can. This year we served clients in all townships of our county, proving we are working hard to be there where you need us, when you need us.

As a team we look forward to serving you in the year to come, looking for new opportunities to serve and fulfill the mission of the COA, navigate any challenges and continue to build on our strong foundation. Thank you for the support and confidence you have shown us this year.
In accordance with our mission
~keeping our seniors safe and independent in their homes
through education, advocacy, and services~
and our 2018 goals,

The MCCOA instituted a new cost-share program starting December 2017. The money collected from the cost-share program goes directly back into services. The cost-share per hour ranges from $2 to $15.

The Snow Removal Program ran from December 1st through April 6th this year. 81 people registered for the snow program this year. Every participant received 3 to 5 plows each.

Through the Medicare and Medicaid Assistance Program (MMAP), our counselors assisted 336 clients during open enrollment, saving them $626,097. Over the course of the year, our counselors logged 376 hours.

210 seniors received, at no cost, Project Fresh vouchers which allows them to “purchase” Michigan grown fresh fruits and vegetables at local farm markets.

Our MDOT grant funded Transportation Assistance Program provided transportation for 73 seniors. This program utilizes only volunteer drivers.
